

# SHOUT ABOUT YOUR VOLUNTEERING

*H*i. I'm Liam O'Hara and I am the Area Director for HSBC Bank. Merton is in my patch.

My team and I give time to the community by scheduling a series of hard-working days at the wonderful Deen City Farm in Morden.

We have done some great work so far this year.

We built a pavement for the chicken village and a large compost unit too.

We really look forward to our next visit where we hope to take advantage of the good weather and paint the fences!

We do it because the opportunities available fit perfectly with HSBC's desire to work on community projects that support education and environmental sustainability.

Most enjoyable for us all is being able to step back at the end of a long day of physical effort and see the fruits of our labour !

The biggest challenge we've faced is making the pavement level so that prams and wheelchairs can use it with ease. Shame on us for thinking it was an easy job! We were delighted to see the farm's visitors using it afterwards

Not many boroughs can claim to have a City farm which has free entry and free education.

## We Volunteer—Why Wouldn't You?
